**BT Inspire 1500**

# User Guide

**BT**

Bringing it all together

This new interactive user guide lets you navigate easily through the pages and allows you to be directed straight to any websites or email addresses that are referenced.

Simply hover the cursor over the page number, website or email reference and click when the 🖑 icon changes to the 👆 icon.

**Think before you print!**

This User Guide provides you with all the information you need to get the most from your phone.

Before you make your first call you will need to set up your phone. Follow the simple instructions in 'Getting Started', on the next few pages or refer to the quick set-up guide enclosed in the box if you haven't already done so.

### Need help?

If you have any problems setting up or using your BT Inspire 1500 please call the Helpline on 0800 218 2182* or email bt.helpdesk@vtecheurope.com. Our dedicated advisors are more likely to be able to help you than the retailer where you made your purchase.

Alternatively, you may find the answer in the 'Help' section at the back of this guide.

### IMPORTANT

Only use the power adaptor and telephone line cord supplied, or this product may not work.

### Hearing aid?

Please note that the BT Inspire 1500 works by sending radio signals between the base and handset. These signals may interfere with some hearing aids, causing a humming noise.

### Got everything?

- BT Inspire 1500 handset
- BT Inspire 1500 answering machine base
- 2 x NiMH AAA 600mAh rechargeable batteries (already fitted)
- Power adaptor (item code 048611)
- Telephone line cord
- Base plinth (already attached)

If you have purchased a BT Inspire 1500 multiple pack you will also have the following for each handset:

- BT Inspire 1500 handset
- BT Inspire 1500 charger
- 2 x NiMH AAA 600mAh rechargeable batteries (already fitted)
- Mains power adaptor for the charger (item code 048610)

* Calls to the Helpline made from within the UK mainland network are free. Mobile and International call costs may vary.

# Getting started

## Location

Place your BT Inspire 1500 within 2 metres of the power socket and telephone socket so that the cables will reach. Make sure it is at least 1 metre away from other electrical appliances to avoid interference.

Your BT Inspire 1500 works by sending radio signals between the handset and base. The strength of the signal depends on where you site the base. Putting it as high as possible ensures the best signal.

### Setting up

1. Plug the power cable with the blue end into the socket marked ⌁ on the underside of the base and plug the other end into the power wall socket and switch the power on. You can place the cable behind the retaining clip to prevent the plug being accidentally pulled from the socket.

**Cable retaining clip**

DC IN 6V

Line

**Telephone line cord (pre-installed)**

**Mains power cable**
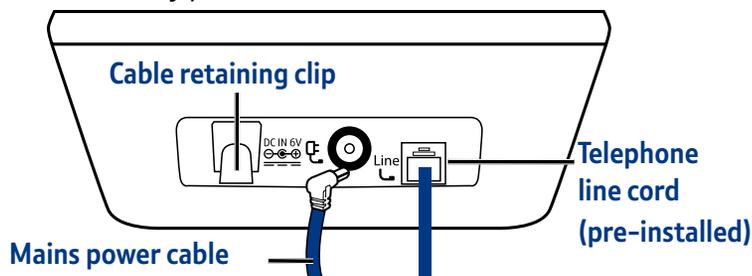

The base indicator lights up. The answering machine is switched on.

2. Batteries will come inserted in the battery compartment. Remove the protective film from the handset screen and activate the batteries by pulling the plastic tab away from the back of the handset.

⇧ **PULL** ⇧
Rechargeable batteries already fitted
Remove this tab and charge batteries for 24 hours before use.
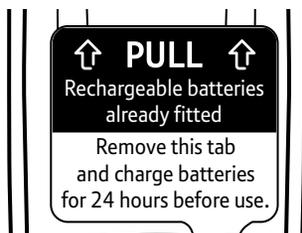

**WARNING**

Do not place your BT Inspire 1500 in the bathroom or other humid areas.

**Handset range**

The BT Inspire 1500 has a range of up to 300 metres outdoors when there is a clear line of sight between the base and handset. Any obstruction between the base and handset will reduce the range significantly. With the base indoors and handset either indoors or outdoors, the range will normally be up to 50 metres. Thick stone walls can severely affect the range.

**Signal strength**

The 📶 icon on your handset indicates when you are in range. If moving out of range of the base, the range indicator will flash. If you go out of range, any call you are on will be lost.

**IMPORTANT**

The base station must be plugged into the power socket at all times. Do not connect the telephone line to the telephone wall socket until the handset is fully charged. Only use the power and telephone cables supplied with the product.

**Battery low warning**

If the ▭ icon flashes in the handset display you will need to recharge the handset before you can use it again. You also hear a low battery warning beep once every 60 seconds. During charging, the ▬ icon will scroll in the display as shown on page 10.

3. Place the handset on the base to charge for at least 24 hours.

4. When the batteries are fully charged, plug the end of the telephone line cord into the telephone wall socket.

# BT Inspire 1500 multiple pack owners only

## Location

You need to place your BT Inspire 1500 charger close enough to a mains power socket so that the cable will reach.

## Setting up the charger

1. Plug the power adaptor cable (item code 048610) into the underside of the charger and secure the cable behind the retaining clip.
Plug the other end into the mains wall socket and switch the power on.

**Mains power cable**
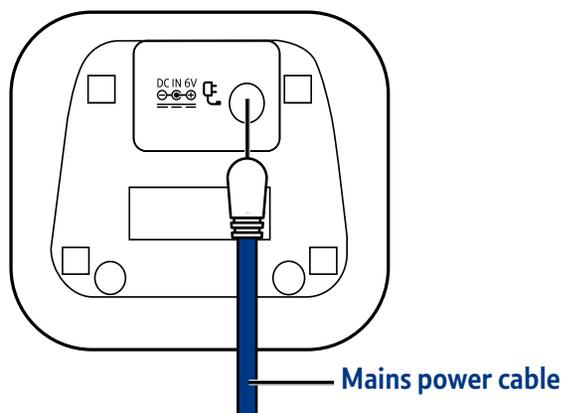

2. Remove the protective film from the handset screen and activate the batteries by pulling the plastic tab away from the back of the handset.

3. Place the handset on the charger and charge for at least 24 hours.

**Battery performance**

In ideal conditions, a fully charged battery should give up to 12 hours talk time or 120 hours standby time on a single charge.

Note that new batteries do not reach full capacity until they have been in normal use for several days.

The charge capacity of rechargeable batteries will reduce with time as they wear out, giving the handset less talk/standby time. Eventually they will need to be replaced. New rechargeable batteries are available from the BT Inspire 1500 Helpline on 0800 218 2182*.

After charging your handset for the first time, subsequent charging time is about 6–8 hours a day depending on usage. Batteries and handset may become warm during charging. This is normal.

**Using your BT Inspire 1500 on a Broadband line?**

If this product is to be used on a broadband line then you must ensure that it is connected via an ADSL microfilter. Using this product on a Broadband line without an ADSL microfilter may cause problems with this product and your Broadband service.

Additional BT ADSL microfilters can be purchased from www.shop.bt.com

## Set date and time manually

Providing you have subscribed to your network's Caller Display service, the date and time is set automatically when you receive your first call.

To set the date and time manually, follow the procedure below.

1. Press the right soft key ▬ (Menu) and scroll [Redial/Vol.] to Settings, press the right soft key ▬ (OK).

2. Date & Time is highlighted, press OK. Time Format is highlighted, press OK.

3. Press [Redial/Vol.] or [Vol./Calls] to choose how you want the clock displayed, either 24 Hour or 12 Hour and press OK.

4. Press [Vol./Calls] to Date Format and press OK. Scroll [Redial/Vol.] or [Vol./Calls] to choose DD/MM/YYYY or MM/DD/YYYY and press OK.

5. Press [Vol./Calls] to Enter Time and press OK. Enter the time using the keypad in 24 hour mode only (e.g. 17:30 for 5.30pm) and press OK.

6. Press [Vol./Calls] to Enter Date and press OK. Enter the date, e.g. 09 04 2011 (displayed as 09/04/2011) for 9 April 2011. Press OK.

## Your BT Inspire 1500 is ready for use.

# Navigating the menus

Your BT Inspire 1500 has an easy to use menu system.

Each menu has a list of options, which you can see on the menu map on the following page.

When the handset is switched on and in standby:

1. Press the right soft key ▬ (Menu) to open the main menu.

2. Then use the [Redial Vol.] or [Vol. Calls] buttons to scroll through the available options.

3. Press the right soft key ▬ (OK) to select a menu option or the left soft key ▬ (Back) to return to the previous screen.

To exit a menu and return to standby, press [☎].

**Left and Right soft keys**

Press to select the option displayed on the screen.

**Left soft key**          **Right soft key**

**Up and Down buttons**
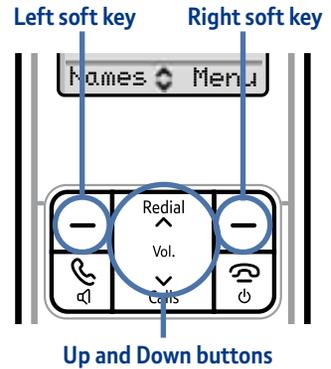

If no buttons are pressed for 30 seconds, the handset returns to standby automatically.

# Using the phone

## Switch handset on or off

To switch off

1. Press and hold 📞 for about 5 seconds.

2. Switch off HS? is displayed, press Yes to confirm.

To switch on

1. Press and hold 📞 until the screen appears.

## Making and receiving calls

### Make an external call

1. Press 📞.

2. When you hear the dial tone, dial the number.

### Preparatory dialling

1. Dial the number first. If you make a mistake press the left soft key ▬ Clear to delete the last digit.

2. Press 📞 to dial.

### End a call

1. Press 📞.

### Receive a call

When you receive a call, the phone rings. The display shows the caller's number and if it matches an entry in your phonebook, it shows the name also. If you do not have a Caller Display service, the screen shows External call.

1. Press 📞.

### Earpiece / handsfree volume

During a call you can adjust the volume of the earpiece or loudspeaker. There are 5 levels.

1. Press ⌃ or ⌄ to increase or decrease the volume.

When you make a call, the 📞 light on the base flashes.

**Call timer**

Your handset will automatically time the duration of all external calls. The handset display shows the call duration both during and for a few seconds after your call.

**Out of range warning**

When the handset goes out of range of the base, the ⊤ flashes. If you are on a call, the line will hang up. Move back within range. The handset will automatically re-connect to the base.

**Auto answer**

As long as you have auto answer set to ON you can answer a call by lifting the handset off the base. If you have switched auto answer off, you will need to press 📞 as well. Auto answer ON is the default setting.

# Call Waiting

Providing you have subscribed to your network's Call Waiting service and it is switched on, your BT Inspire 1500 will alert you to a second incoming call while you are already engaged on an external call.

1. You will hear the call waiting tone, then the display will show Call Waiting and the telephone number of the caller, or the stored name and number if it matches an entry in your phonebook.

2. Press ⬛R⬛ to answer the new call and your first caller is put on hold.

3. Press ⬛R⬛ to toggle between the two callers.

4. Press 📞 to hang up the current call.

# Secrecy

During a call, you can talk to someone nearby without your caller hearing.

1. Press left soft key ▬ (Secrecy). The display shows Secrecy On and your caller cannot hear you.

2. Press left soft key again ▬ (Secrecy) to return to your caller.

# Handsfree

Handsfree lets you talk to your caller without holding the handset. It also enables other people in the room to listen to your conversation over the loudspeaker.

### Make a handsfree call

1. Dial the number then press 📞 twice. 📞 🔊 is displayed. You hear your call over the handset loudspeaker. Press 📞 to switch the call between the earpiece and the loudspeaker.

2. Press 📞 to end the call.

### Answer a call handsfree

When the phone rings:

1. Press and hold 📞 for at least 2 seconds. The call is answered in handset loudspeaker mode.

### Switch to handsfree during a call

1. During a call: press 📞 to put the call on the loudspeaker. To switch handsfree off and return the call to the earpiece, press 📞 again.

# Headset

A suitable headset is available to purchase from the BT Helpline 0800 218 2182*, just press the ⬛ BT button followed by the 📞 button to call them. The headset port should also be compatible with any other Headset/Microphone combination terminated with a 2.5mm plug with three metal contact bands (poles).

The headset socket is located on the side of the handset, peel back the rubber bung and plug the headset into the socket. You can then make and receive calls as normal.

# Redial

Up to the last 10 telephone numbers called are saved in the redial list. You can then select any of the numbers to redial, delete or copy to the directory.

### Redial the last number called

1. Press ⬛ Redial the last number you called is displayed.
2. Press 📞 to dial.

### Redial a number from the redial list

1. Press ⬛ Redial , the last number you called is displayed.
2. Press ⬛ Redial or ⬛ Vol. Calls to scroll to the number you want.
3. Press 📞 to dial.

## Save a number from the redial list to the phonebook

1. Press [Redial/Vol.] then scroll [Redial/Vol.] or [Vol./Calls] to the number you want.

2. Press Options and scroll [Vol./Calls] to Store Number.

3. Press OK. Use the keypad to enter a name.

4. Scroll [Vol./Calls] to Number. The number is displayed. Press OK.

5. Group is displayed. If required, scroll [Redial/Vol.] or [Vol./Calls] to select a group. Press OK. Display shows Saved.

6. Press Back to return to the standby screen.

## Delete a redial number

1. Press [Redial/Vol.]. The last number dialled is displayed.

2. Scroll [Redial/Vol.] or [Vol./Calls] to the number you want.

3. Press Options and scroll [Vol./Calls] to Delete and press OK. Delete? is displayed. Press Yes to confirm or No to cancel.

4. Press Back to return to the standby screen.

## Delete all redial numbers

1. Press [Redial/Vol.]. The last number dialled is displayed.

2. Press Options and scroll [Vol./Calls] to Delete All and press OK.

3. Delete All? is displayed. Press Yes to confirm or No to cancel.

4. Display shows List Empty and returns to the standby screen.

# Keypad lock

You can lock the keypad so that it cannot be used accidentally while carrying it around.

## To lock the keypad:

1. Press and hold [#△]. The handset beeps and Keypad Locked is displayed for 2 seconds before returning to the standby screen. The screen will show the 🔑 icon.

To view the details of the number, press Options. Details is displayed, press OK.

Press Clear to delete any unwanted digits and then enter new ones using the keypad.

If the phonebook is full, the display shows Memory Full and the number will not be saved. You will need to delete a number in the phonebook first, see page 20.

Call Groups available: No Group, General, Family, Business, Friends, Utilities, VIP and Others.

**WARNING**

If the keypad is locked you will still be able to dial the emergency numbers 999 and 112.

When the keypad is locked you can still answer incoming calls and operate the handset as normal. When the call is ended, the keypad lock comes on again.

## To unlock the keypad:

1. Press and hold ⌗🔒. The handset beeps and Keypad Unlocked is displayed for 2 seconds before returning to the standby screen. The 🔑 will disappear.

# Find handset (Paging)

You can ring a handset to help locate it.

1. Press and release [Find] on the base. All handsets registered to the base will ring for up to 60 seconds.

2. Press [Find] on the base again to stop the ringing or press a button on any handset.

The handset will ring even if the handset ringer has been turned off.

# Phonebook

You can store up to 100 names and numbers in the phonebook. Names can be up to 15 characters long and numbers up to 24 digits.

You must enter both a name and a number.

## Store a name and number in the phonebook

1. From standby, press the left soft key ▬ (Names). The phonebook menu is displayed.

2. New Entry is highlighted. Press OK.

Or, if entries are already stored you will need to press [Redial ⌃ Vol.] to highlight New Entry and then press OK.

3. Enter the name (See the notes opposite for help). Press OK.

4. Number is displayed. Enter the number. Press OK.

5. Group is displayed and the group ringtone melody is played (you cannot change the ringtone at this stage, to do so later, see page 22). If you wish to add the entry to a call group, scroll [Redial ⌃ Vol.] or [Vol. ⌄ Calls] to select a group and press OK. Display shows Saved (if you don't want to use this feature, simply select No Group).

6. Press Back to return to the standby screen.

**Entering names**

Use the keypad letters to enter names, e.g. to store Tom:

Press **8** once to enter T.
Press **6** three times to enter o.
Press **6** once to enter m.

**Writing tips**

Press Clear to delete the last character or digit.
Press [Redial ⌃ Vol.] or [Vol. ⌄ Calls] to move backwards or forwards through character/digits.
Press **✳** to switch between upper, lower or sentence case.
Press **1** to insert a space.
Use **1** and/or **0** for other punctuation characters.

**Call groups**

When you store names and numbers you can also store the entry under a call group name, e.g. Family or Friends. You can also allocate a different ringtone to each call group, see page 21. If you don't want to use this feature simply store each entry under No Group and your normal ringtone will sound when someone calls.

**The call group options are:**

| | |
|---|---|
| No Group | Friends |
| General | Utilities |
| Family | VIP |
| Business | Others |

## View an entry in the phonebook

1. Press Names. The first entry is displayed.

2. Scroll [Redial ^ Vol.] or [Vol. ˅ Calls] to the entry you want.

3. Press Options and scroll [Vol. ˅ Calls] to View Entry.

4. Press OK. Scroll [Redial ^ Vol.] or [Vol. ˅ Calls] to view the name, number and group.

5. Press Back to return to the previous menu level.

## View phonebook capacity

1. From standby, press Names. The phonebook is displayed.

2. If there are no phonebook entries present, scroll [Vol. ˅ Calls] to Capacity and press OK. If there are phonebook entries, scroll [Vol. ˅ Calls] to any entry and press Options. Scroll [Vol. ˅ Calls] to Capacity and press OK.

3. The number of entries used/available is displayed, e.g. 20/100.

4. Press Back to return to the previous menu level.

## Dial an entry in the phonebook

1. In standby, press Names. The first entry is displayed.

2. Scroll [Redial ^ Vol.] or [Vol. ˅ Calls] to the entry you want or search alphabetically.

3. Press [📞] to dial.

## Edit a name and number in the phonebook

1. Press Names.

2. Scroll [Redial ^ Vol.] or [Vol. ˅ Calls] to the entry you want.

3. Press Options and scroll [Vol. ˅ Calls] to Edit Entry and press OK.

4. Name is displayed. Use the keypad to enter a new name. Press OK.

5. Number is displayed. Use the keypad to enter a new number. Press OK.

6. Group is displayed. Press [Redial ^ Vol.] or [Vol. ˅ Calls] to select a different group. Press OK.

7. Press OK. Display shows Saved.

To exit phonebook entry mode, press [📞] to return to the standby screen.

**To enter a pause in a phonebook number**

When storing a number press and hold [0] and a P will be displayed.

For more information on pauses, see page 59.

**To search alphabetically**
Press the relevant keypad button, e.g. for the entries beginning with T press [8 TU V] once then scroll [Redial ^ Vol.] or [Vol. ˅ Calls] through the entries.

When editing a name or number, press Clear to delete characters and digits.

To exit edit mode, press [📞] to return to the standby screen.

## Copy an entry from the phonebook to another handset

1. Press Names. Then scroll [↑ Redial/Vol.] or [↓ Vol./Calls] to the entry you want to copy.

2. Press Options and scroll [↓ Vol./Calls] to Copy Entry and press OK.

3. Press [↑ Redial/Vol.] or [↓ Vol./Calls] to select the handset you want to copy to and press OK.

At the receiving handset:

4. Display shows Accept entries? Press Yes to confirm or No to cancel.

5. When successful the display shows ✓ Finished.

## Copy all phonebook entries to another handset

1. Press Names. The first entry is displayed.

2. Press Options and scroll [↓ Vol./Calls] to Copy All and press OK.

3. Press [↑ Redial/Vol.] or [↓ Vol./Calls] to select the handset you want to copy all entries to and press OK.

At the receiving handset:

4. Display shows Accept entries. Press Yes to confirm or No to cancel.

5. When successful the display shows ✓ Finished.

## Delete an entry in the phonebook

1. Press Names.

2. Scroll [↑ Redial/Vol.] or [↓ Vol./Calls] to the entry you want.

3. Press Options and scroll [↓ Vol./Calls] to Delete Entry and press OK. Display shows Delete? Press Yes to confirm or No to cancel.

4. Press Back to return to the standby screen.

Copy and copy all menu options are only available if more than one handset is registered to the base.

If you copy an entry that already exists in the receiving handset it will create a duplicate entry.

If copying is not successful, the display will show Copying failed on the transmitting handset.

If the phonebook is full the display will show Memory full on the receiving handset.

If the copying process is interrupted (e.g. an incoming call or flat battery), the copy process will stop.

If the phonebook becomes full during copying the display shows Memory Full.

If copying is not successful the display shows Copying failed.

If you copy an entry that already exists in the receiving handset it will create a duplicate entry.

If the copying process is interrupted (e.g. an incoming call or flat battery), phonebook entries after this interruption will not be copied.

**Memory Full**

If your phonebook memory becomes full, the display shows Memory Full! All entries stored up until the memory becomes full are kept in the phonebook.

## Delete entire phonebook

1. Press Names.

2. Scroll [Vol./Calls] to any phonebook entry and press Options.
   Scroll [Redial/Vol.] or [Vol./Calls] to Delete All and press OK.

3. Display shows Delete All? Press Yes to confirm or No to cancel.

4. Press Back to return to the standby screen.

## Edit call group name

1. Press Names.

2. Scroll [Vol./Calls] to any phonebook entry and press Options.
   Scroll [Redial/Vol.] or [Vol./Calls] to Edit Call Gp. and press OK.

3. Scroll [Redial/Vol.] or [Vol./Calls] to the call group you want.

4. Press Options. Display highlights Rename Group. Press OK.

5. Press Clear to delete the current name and enter a new name.

6. Press OK to save.

7. Press Back to return to the previous menu level.

## Change call group ringtone

You can set different ringtones for each call group so you will
know when someone from a certain call group is phoning you.

1. Press Names.

2. Scroll [Vol./Calls] to any phonebook entry and press Options.
   Scroll [Redial/Vol.] or [Vol./Calls] to Edit Call Gp. and press OK.

3. Scroll [Redial/Vol.] or [Vol./Calls] to the call group you want.

4. Press Options. Scroll [Vol./Calls] to Set Ringtone. Press OK.

5. Press [Redial/Vol.] or [Vol./Calls] to choose the ringtone. A sample of each
   one is played. Press OK to save.

6. Press Back to return to the previous menu level.

# Speed Dial

You can allocate a name and number from the phonebook to each of the Speed Dial buttons **2** AB C to **9** WX YZ. Then you can simply press and hold the Speed Dial button to automatically dial the number stored under it.

## Copy a phonebook entry to a Speed Dial button

1. Press Names.

2. Press Options and scroll [Redial/Vol.] to Speed Dial and press OK.

3. Scroll [Redial/Vol.] or [Vol./Calls] to the Speed Dial button you want (button **2** AB C to **9** WX YZ) and press OK.

4. If a name and number is already allocated to the Speed Dial button you have chosen they will be displayed. To re-use this Speed Dial button see, "Edit a Speed Dial entry", on page 23.

5. If the Speed Dial is empty No number is displayed and then the screen shows all your Phonebook entries. Scroll [Redial/Vol.] or [Vol./Calls] to the entry you want to select and press OK to save.

## Delete a Speed Dial entry

1. Press Names.

2. Press Options and scroll [Redial/Vol.] to Speed Dial and press OK.

3. Scroll [Redial/Vol.] or [Vol./Calls] to select the Speed Dial button number you want to delete and press OK.

4. The name and number is displayed, press Options and scroll [Vol./Calls] to Delete.

5. Press OK to confirm, Deleted is displayed.

6. Press Back to return to the previous menu level.

## Edit a Speed Dial entry

1. Press Names.

2. Press Options and scroll [Redial ∧ Vol.] to Speed Dial and press OK.

3. Scroll [Redial ∧ Vol.] or [Vol. ∨ Calls] to the Speed Dial button you want to edit and press OK.

4. The name and number is displayed, press Options and Edit is displayed.

5. Press OK to confirm, and then scroll [Redial ∧ Vol.] or [Vol. ∨ Calls] to the entry in the phonebook you want and press OK to save.

6. This new name and number from the phonebook will replace the old name and number for this Speed Dial button.

7. Press Back to return to the previous menu level.

## Dial a Speed Dial entry

1. Press and hold the Speed Dial button ([2 AB C] to [9 WX YZ]) that holds the number you wish to dial.

2. The display shows the 📞 icon and the number being dialled.

Call group names cannot exceed 10 characters.

# Sounds

The following sounds settings are for the handset, see page 26 to change the base ringer volume and melody.

## Handset ringer melody (for external or internal calls)

1. Press Menu, scroll [Vol. Calls] to Sound and press OK.

2. Ringer is highlighted. Press OK.

3. External is highlighted, either press OK to select or scroll [Vol. Calls] to Internal and then press OK.

4. Press [Redial Vol.] or [Vol. Calls] to select the melody you want and press OK.

## Handset ringer volume (including ringer off)

1. Press Menu, scroll [Vol. Calls] to Sound and press OK.

2. Ringer is highlighted, press OK.

3. Scroll [Vol. Calls] to Ringer Volume and press OK.

4. Scroll [Redial Vol.] or [Vol. Calls] to select the volume level 1-5 or off and press OK.

## Set to quiet mode

1. Press Menu, scroll [Vol. Calls] to Sound and press OK.

2. Ringer is highlighted, press OK.

3. Scroll [Vol. Calls] to Quiet mode and press OK.

4. Press [Redial Vol.] or [Vol. Calls] to select Beep or Off and press OK.

## Handset beeps

1. Press Menu, scroll [Vol. Calls] to Sound and press OK.

2. Scroll [Vol. Calls] to Tones. Press OK.

3. Key Tone is highlighted, press OK or scroll [Vol. Calls] to either Confirm Tone, Battery Low or Out Of Range and then press OK.

4. Press [Redial Vol.] or [Vol. Calls] to select On or Off, then press OK to confirm.

5. Press Back to return to the previous menu level.

---

You can set different ringtones for external calls and internal calls.

Choose from 10 polyphonic and 5 standard handset ringtones. Melody 1-5 are standard and Melody 6 to 15 are polyphonic.

**Important**

Changing the handset ringer melody will only change the ringer melody you hear when callers stored under No Group in your phonebook or callers whose numbers are not stored in your phonebook call you. To change the ringer melody for callers stored under different call groups, see page 21 or for more information on call groups, see the notes on page 18.

The handset has 5 ringer volume settings plus Off.

The icon will be displayed in the idle screen when the ringer is set to Off.

As a quick way to switch the handset ringer off, press and hold [* ♪].

If you switch the handset ringer off you can still hear a tone when you receive an incoming call by changing the Quiet mode setting to Beep.

Your handset can give a key beep to each button press. It can also give a tone to confirm a successful action such as storing a new phonebook entry. You can switch these tones on or off individually.

# Settings

## Handset settings

### Select base

You can use this feature if you've registered your handset to two different bases.

1. Press Menu, scroll [Redial/Vol.] to Settings and press OK.

2. Scroll [Redial/Vol.] to HS Settings and press OK.

3. Select Base is displayed, press OK.

4. Press [Redial/Vol.] or [Vol./Calls] to select the base and press OK.

### Display contrast / Handset name

1. Press Menu, scroll [Redial/Vol.] to Settings and press OK.

2. Scroll [Vol./Calls] to Display and press OK.

3. Contrast is displayed.
   Either: Press OK, then [Redial/Vol.] or [Vol./Calls] to select the contrast setting and press OK.

   Or

   Scroll [Vol./Calls] to Name and press OK. Press Clear to delete the current name. Enter a new name and then press OK to save.

4. Press Back to return to the previous menu level.

Adjust the display contrast to suit different lighting conditions. There are 8 levels.

Set a name for your handset, e.g. Donna or Office.

### Auto answer

1. Press Menu, scroll [Redial/Vol.] to Settings and press OK.

2. Scroll [Redial/Vol.] to HS Settings and press OK.

3. Scroll [Vol./Calls] to Auto Answer and press OK.

4. Press [Redial/Vol.] or [Vol./Calls] to select On or Off and press OK to save.

5. Press Back to return to the previous menu level.

As long as you have auto answer set to ON you can answer a call by lifting the handset off the base. If you have switched auto answer off, you will need to press as well. Auto answer ON is the default setting.

## De-register a handset

1. Press Menu, scroll [Redial Vol.] to Settings and press OK.

2. Scroll [Redial Vol.] to HS Settings and press OK.

3. Scroll [Vol. Calls] to De-register and press OK.

4. Enter the 4-digit system PIN code (default 0000) and press OK.

5. Press [Redial Vol.] or [Vol. Calls] to select the handset number you want to de-register and press OK.

6. The display will show De-register Handset X?
Select either Yes to confirm or No to cancel.

You cannot de-register the handset you are using.

For information on changing the system PIN, see page 27.

## Handset reset

1. Press Menu, scroll [Redial Vol.] to Settings and press OK.

2. Scroll [Redial Vol.] to HS Settings and press OK.

3. Scroll [Redial Vol.] to Reset Handset and press OK.

4. Enter the 4 digit system PIN code (default 0000) and press OK.

5. Display shows Reset Handset to Default? Press Yes to confirm or No to cancel.

Restore your handset to its original factory settings. This will not affect:

• The phonebook
• Text messages stored in the Inbox or Draftbox
• The Calls list

# Base settings

## Base ringer melody and volume

1. Press Menu, scroll [Redial Vol.] to Settings and press OK.

2. Scroll [Redial Vol.] to BS Settings. Press OK.

3. Ringer is highlighted. Press OK.

4. The Ringtone option is highlighted. Press OK, then press [Redial Vol.] or [Vol. Calls] to select the melody 1-5 and press OK.

5. Scroll [Vol. Calls] to Ringer Volume and press OK. Press [Redial Vol.] or [Vol. Calls] to select the volume level 1-5 or off and press OK.

6. Press Back to return to the previous menu.

Choose from 5 base ringtones. There are 5 volume levels and Off.

## Handset ringing priority

1. Press Menu, scroll [Redial ^ Vol.] to Settings and press OK.

2. Scroll [Redial ^ Vol.] to BS Settings. Press OK.

3. Scroll [Vol. v Calls] to Ring Priority. Press OK.

4. All Handsets is highlighted. Press OK for all handsets to ring together.

   Or

   Scroll [Vol. v Calls] to Select Handset. Press OK then press [Redial ^ Vol.] or [Vol. v Calls] to select the handset you want to ring first. Press OK. The ring delay option is highlighted. Press [^ Vol.] or [Vol. v Calls] to set the number of rings before the other handsets ring. Press OK.

5. Press Back to return to the previous menu.

## Recall mode

1. Press Menu, scroll [Redial ^ Vol.] to Settings and press OK.

2. Scroll [Redial ^ Vol.] to BS Settings. Press OK.

3. Scroll [Vol. v Calls] to Recall Mode. Press OK.

4. Press [Redial ^ Vol.] or [Vol. v Calls] to select Timed Break or Earth and press OK.

## System PIN

1. Press Menu, scroll [Redial ^ Vol.] to Settings and press OK.

2. Scroll [Redial ^ Vol.] to BS Settings. Press OK.

3. Scroll [Vol. v Calls] to System PIN. Press OK.

4. Enter the old PIN (default setting 0000) and press OK.

5. Enter the new PIN and press OK. Re-enter the new PIN and press OK. Press Back to return to the previous menu level.

When you have more than one handset registered to your base, you can set one handset to ring before the others. This allows one handset user to answer all incoming calls first, like a receptionist.

Choose All Handsets if you want all handsets to ring at the same time or Select Handset to nominate a handset to ring before the others.

Ring delay options; 2, 4, 6 or 8 rings.

Earth and Timed Break are settings for switchboard use. If in doubt please contact your switchboard service provider.

The System PIN is used when changing certain settings and registration / de-registration. The default setting is 0000. You can change this to your own preferred 4-digit number.

If you make a mistake, press Clear to delete digits.

The System PIN is also used as your Remote Access PIN. See page 39 for more information on Remote Access.

## Reset base

This resets your BT Inspire 1500 to its original settings.

1. Press Menu, scroll ▢ to Settings and press OK.

2. Scroll ▢ to BS Settings. Press OK.

3. Scroll ▢ to Reset Base. Press OK.

4. Enter the system PIN (default setting = 0000) and press OK.

5. Display shows Reset to Default? Press OK to confirm or Back to cancel.

6. Press Back to return to the previous menu level.

# Date/Time/Alarm

## Set date and time

Providing you have subscribed to your network's Caller Display service, the date and time is set automatically when you receive your first call.

1. Press Menu, scroll ▢ to Settings and press OK.

2. Date & Time is highlighted. Press OK.

3. Time Format is highlighted, press OK. Press ▢ or ▢ to choose 24 Hour or 12 Hour and press OK.

4. Scroll ▢ to Date Format and press OK. Press ▢ or ▢ to select DD/MM/YYYY or MM/DD/YYYY and press OK.

5. Scroll ▢ to Enter Time and press OK. Enter the time using the keypad in 24 hour mode only, e.g. 17:30 for 5.30pm. Press OK.

6. Scroll ▢ to Enter Date and press OK. Enter the date e.g. 09 04 2011 (displayed as 09/04/2011) for 9 April 2011 and press OK.

7. Press Back to return to the previous menu level.

## Set alarm call

1. Press Menu, scroll [Redial ∧ Vol.] to Settings and press OK.

2. Scroll [Vol. ∨ Calls] to Alarm. Press OK.

3. Scroll [Vol. ∨ Calls] to Enter Time and press OK.

4. Enter the alarm time, using the 24 hour format, e.g. 22:30 for 10.30pm and press OK.

5. Select Once or Daily using the [Redial ∧ Vol.] or [Vol. ∨ Calls] buttons and press OK.

6. Scroll [Vol. ∨ Calls] to Alarm On/Off and press OK. Press [Redial ∧ Vol.] or [Vol. ∨ Calls] to select On or Off and press OK.

   You must set the alarm to ON for the alarm to ring.

7. Scroll [Vol. ∨ Calls] to Ringtone and press OK. Press [Redial ∧ Vol.] or [Vol. ∨ Calls] to select the ringtone you want for the alarm. Press OK to save.

   You can select melody 1-15 for the alarm ringtone.

8. Press [☎ phone icon] to return to the standby screen. The [bell icon] icon is displayed if the alarm was set.

## Stop alarm ring

When the alarm rings, the display shows ((Alarm)) and the [bell icon] icon flashes. The alarm rings for 30 seconds.

1. Press Stop to stop the alarm.

# Calls list

## Caller Display

If you have subscribed to a Caller Display Service, you will be able to see your caller's number on your handset display (provided it is not withheld) prior to answering the call.

If your caller's name is stored in the phonebook and a number match is found, you will see the caller's name and number on the display.

### Calls list

The calls list holds details of up to 30 received calls. The date and time of the call is stored if available.

When the list is full, and a new call is received, the oldest entry will be deleted automatically.

The Calls list can hold numbers up to 24 digits and names up to 15 characters.

Unread, missed calls are displayed with a ● icon next to the caller's name or number. Read, missed calls have a ◎ icon next to the caller's number.

### View call details

1. Press [Vol./Calls], the most recent entry is at the top of the list.
2. Press [Redial/Vol.] or [Vol./Calls] to scroll through the list.
3. Press Options. Details is highlighted. Press OK.
4. The display shows phone number, date and time of the call.
5. Press [Redial/Vol.] or [Vol./Calls] to display details about the next call.
6. Press Back to return to the previous menu level.

**IMPORTANT**

To use Caller Display you must first subscribe to the service from your network provider. A quarterly fee may be payable. For more information on

BT Calling Features call BT free on 0800 800 150.

To ensure the caller's name is displayed, make sure you have stored the full telephone number, including the dialling code in the directory.

The icon will appear in the display when a missed call is received. To remove the icon you need to view the missed calls, see 'View call details' below.

If the number is unavailable, Unavailable is displayed.

If the number has been withheld by the caller, Withheld is displayed.

If the call is from the operator, Operator is displayed.

If the call is from a payphone, Payphone is displayed.

If the call is from a callback request, Callback is displayed.

If you do not have a Caller Display service, an external call is displayed as External Call.

When there are no calls in the calls list, the display shows Empty then will offer the Settings option.

When a Calls list is open, press [Redial/Vol.] to scroll from the newest call to the oldest, or press [Vol./Calls] to scroll from the oldest call to the newest.

## Dial from the Calls list

1. Press [Vol. Calls], the most recent entry is at the top of the list.

2. Press [Redial Vol.] or [Vol. Calls] to scroll through the list.

3. Press [call] to call the number.

Or

1. Press [Vol. Calls].

2. Press [Redial Vol.] or [Vol. Calls] to scroll through the list to the entry you want.

3. Press Options. Scroll [Vol. Calls] to Call Number and press OK.

## Copy a Calls list number to the phonebook

1. Press [Vol. Calls].

2. Press [Redial Vol.] or [Vol. Calls] to scroll through the list to the entry you want.

3. Press Options. Scroll [Vol. Calls] to Store Number and press OK.

4. Enter the name and press OK.

5. Number is displayed. Edit the number if required and press OK.

6. Group is displayed. Press [Redial Vol.] or [Vol. Calls] to set the call group you want.

7. Press OK to save.

8. Press Back to return to the previous menu level.

## Calls list settings: Category and New Call alert

1. Press [Vol. Calls].

2. Press Options. Scroll [Vol. Calls] to Settings and press OK.

3. Category is displayed, press OK. Press [Redial Vol.] or [Vol. Calls] to select All Calls or New Calls and press OK.

4. Scroll [Vol. Calls] to New Call Alert and press OK. Press [Redial Vol.] or [Vol. Calls] to select On or Off and press OK.

5. Press Back to return to the previous menu level.

If you need to edit the number or name, press Clear to delete any unwanted characters, then enter new ones using the keypad.

**New call alert**

The new call alert will cause the handset to beep when a missed call is received in the calls list and has not been viewed yet. The default setting is Off.

If you turn the new call alert Off and the beeping continues, you may need to clear all calls in the calls list to stop it.

**Category**

All Calls will list answered and missed calls in the Calls list.

New Calls will only list unanswered calls.

## Delete an entry

1. Press [Vol. Calls].

2. Press [Redial Vol.] or [Vol. Calls] to scroll through the list to the entry you want.

3. Press Options. Scroll [Vol. Calls] to Delete and press OK. Delete? is displayed, press Yes to confirm or No to cancel.

4. Press Back to return to the previous menu level.

## Delete entire Calls list

1. Press [Vol. Calls].

2. Press Options. Scroll [Vol. Calls] to Delete All and press OK.

3. Delete All? is displayed, press Yes to confirm or No to the previous menu level.

# Voicemail

1. If you have subscribed to the BT Answer 1571 service you can press and hold **1** to listen to your messages.

2. The display shows Listen to Info. Follow the spoken instructions if appropriate.

# BT Network Services

By selecting the BT Services menu you can access a range of useful pre-stored numbers and further BT Calling Features.

## Pre-stored BT Services numbers:

- Helpdesk
- BT 118500 (directory enquiries)
- Divert on
- Divert off
- Check divert
- Call wait on
- Call wait off
- Check call wait

### BT Inspire 1500 Helpdesk

1. Press [BT] (a short press only).
2. Helpdesk is highlighted. Press [📞] to call.

### BT 118500 (Directory Enquiries)

1. Press [BT] (a short press only).
2. Scroll [Vol./Calls] to BT 118500 and press [📞] to call.

### Call Divert on/off/check

1. Press [BT] (a short press only).
2. Scroll [Vol./Calls] to select either Divert on, Divert off or Check divert.
3. Press [📞] to call. Follow the spoken instructions, or listen for confirmation/status of your instructions.

### Call Waiting on/off/check

1. Press [BT] (a short press only).
2. Scroll [Vol./Calls] to Call wait on, Call wait off or Chk call wait.
3. Press [📞] to call. Follow the spoken instructions, or listen for confirmation/status of your instructions.

**IMPORTANT**

To use BT Services and BT Calling Features you must first subscribe (if required) to the relevant service from your network provider. A quarterly fee may be payable. For more details on BT's Calling Features, call BT free on 0800 800 150.

If you are not connected to the BT network, some of these services may not be available. Please contact your network provider. Call Diversion services may allow other divert options. Check with your network provider for details.

For further information, see the BT Calling Features user guide supplied when you subscribe to the services of your choice.

A long press and hold of the [BT] button will emit an error beep (if the handset key tone is set to on) and will not open the BT menu.

Call Divert will divert all incoming calls to another number of your choice.

Call Waiting lets you know if another person is trying to contact you while you are on a call. If a second caller rings you will hear a beep in the handset. Providing you have also subscribed to Caller Display, the screen will show the caller's details.

## Show/Edit/Delete BT Services numbers

**1.** Press [ BT ] (a short press only).

**2.** Scroll [Redial ∧ Vol.] or [Vol. ∨ Calls] to select the entry you want and press `Options`.

**3.** Scroll [Redial ∧ Vol.] or [Vol. ∨ Calls] to `Show Details` and press `OK`.
The number allocated to that entry is displayed.
Press `Back` to return to the previous menu level.

**4.** From step 2 above you can also scroll [Vol. ∨ Calls] to `Edit Entry`, `Delete Entry` or `Delete All`. Press `OK` then follow the procedure for editing or deleting phonebook entries as shown on page 19 and 20 of this guide.

To reset the BT Services numbers back to the pre-stored numbers you can reset the handset to it's original factory default settings, see page 28.

# Answering machine

Your BT Inspire 1500 can digitally record up to 27 minutes of messages. Each incoming message can last up to a maximum of 3 minutes. When the memory is full the handset displays Memory Full and the base display shows FF. You will need to play your messages and then delete some before any more messages can be recorded, see page 38.

You can operate your answering machine from:

- the handset.
- the base.
- remotely, from any other Touchtone™ telephone, see page 36.

Your BT Inspire 1500 comes with two pre-recorded outgoing messages, Answer and Record or Answer Only, alternatively you can record your own.

## Using the answering machine from the handset

### Switch the answering machine on / off

1. Press Menu. Scroll ⏷ to Answer Machine . Press OK.

2. Scroll ⏷ to Answer On/Off. Press OK.

3. Scroll ⏶ or ⏷ to highlight On or Off. Press Back to return to previous menu or Save to confirm. When switched on the handset display shows ⏺.

4. Press Back to return to the previous menu level.

## Outgoing messages

The outgoing message is the message a caller first hears when the answering machine picks up their call. There are 2 prerecorded outgoing messages to choose from (see note right) or you can record your own.

You will need to set the day, date and time (if you have not already done so)so that you will know when each message was received. If you have subscribed to your network's Caller Display service, the date and time is set automatically when you receive your first call. To set the date and time manually, see page 8.

The default day and time setting is Sunday 12.01 pm.

**Voice prompts**

Your BT Inspire 1500 answering machine has voice prompts to help you use its settings and features.

**Answer and Record (Ans & Rec)**

The pre-set Answer and Record outgoing message, that allows your caller to leave a message, is "Hello, your call cannot be taken at the moment, so please leave your message after the tone".

Your Answer and Record outgoing message can be up to 1 minute long and will replace the pre-recorded message.

**Answer Only**

The pre-set Answer Only outgoing message, where callers hear an announcement but cannot leave a message, is "Hello, your call cannot be taken at the moment and you cannot leave a message, so please call later".

## Record your own outgoing message

1. Press Menu. Scroll [Vol./Calls] to Answer Machine. Press OK.

2. Scroll [Vol./Calls] to Outgoing Msg. and press OK.

3. Record Message is highlighted. Press OK.

4. Scroll [Redial/Vol.] or [Vol./Calls] to highlight Ans & Record or Answer Only and press OK.

5. Speak your announcement after the long beep. Press Save to stop recording.

6. Your message is then played back. If you want to delete it, press Delete during playback. Or press OK to save.

## Check or delete your outgoing message

1. Press Menu. Scroll [Vol./Calls] to Answer Machine. Press OK.

2. Scroll [Vol./Calls] to Outgoing Msg and press OK.

3. Scroll [Vol./Calls] to Play Message. Press OK.

4. Scroll [Vol./Calls] to Ans & Rec. or Answer Only and press OK.

5. Your message is then played back. If you want to delete it, press Delete during playback. Or press OK to save.

## Answer settings

1. Press Menu. Scroll [Vol./Calls] to Answer Machine. Press OK.

2. Scroll [Vol./Calls] to Ans.Settings and press OK.

3. Answer Mode is highlighted, press OK. Press [Redial/Vol.] or [Vol./Calls] to select the outgoing message mode, Answer Only or Ans & Rec. Press OK.

4. Scroll [Vol./Calls] to Answer Delay and press OK. Press [Redial/Vol.] or [Vol./Calls] to select the number of rings (2, 3, 4, 5, 6, 7, 8, 9 or Time Saver) and press OK.

5. Scroll [Vol./Calls] to Recording Time and press OK. Press [Redial/Vol.] or [Vol./Calls] to select the maximum message length, 1, 2 or 3 minutes or unlimited, and press OK.

6. Press Back to return to the previous menu level.

When recording your Answer Only message, remember to advise your caller that they will not be able to leave a message. Your own Answer Only message can be up to 1 minute long and will replace the pre-recorded message.

To reinstate the pre-recorded messages, delete your own recorded outgoing message, see "Check or delete your outgoing message".

You cannot delete a pre-recorded message. If you delete your personal outgoing message the pre-recorded outgoing message will be automatically reinstated as your outgoing message.

### Answer mode

Choose which outgoing message you want played to callers.

### Answer delay

Answer delay sets the number of times your BT Inspire 1500 will ring before the answer machine picks up your call and starts playing the outgoing message. You can change the Answer Delay setting to 2-9 Rings and Time Saver.

For compatibility with BT 1571 (or another voicemail service) do not set the ring delay to more than 6 rings.

For more information on BT 1571, please see page 50.

### Time saver

When you ring in to access your messages remotely, if your answering machine is set to time saver and you have new messages it will answer after 10 seconds, if you do not have any new messages, it will answer after 20 seconds. This means you can hang up knowing you have no new messages, saving you time and the cost of the call.

### Recording time

Set the maximum message length: 1, 2 or 3 minutes or unlimited.

## Switch the answering machine on/off at pre-set times

1. Press Menu. Scroll [Vol./Calls] to Answer Machine. Press OK.

2. Scroll [Vol./Calls] to Answer Settings and press OK.

3. Scroll [Vol./Calls] to Timed Answer and press OK.

4. Frequency is highlighted, press OK. Press [Redial/Vol.] or [Vol./Calls] to select Off, Daily, Mon to Fri, Saturday or Sunday and press OK.

5. Scroll [Redial/Vol.] or [Vol./Calls] to Set Time on or Set Time off and press OK.

6. Enter the time you want using the keypad in the format hh:mm and press OK. The display will show Saved.

## Record a memo

You can record a memo message on the answer machine for other users to hear when they listen to messages. Memo messages are played back in exactly the same way as normal answer machine messages.

1. Press Menu. Scroll [Vol./Calls] to Answer Machine. Press OK.

2. Scroll [Vol./Calls] to Record Memo and press OK.

3. Listen to the voice prompt and after you hear the long beep, speak your memo. When you've finished, press Save.

4. Your memo will be played back to you. If you want to delete it, press Delete during playback. If you press OK or wait for it to be played back it will be saved.

## Call screening

When an incoming call is answered by the answering machine, Screening? will be displayed on the handset.

To screen the call, press OK. To stop screening and let the answering machine continue to take the call press End.

Screening allows you to hear the caller talking to the answering machine.

This allows you to hear who is calling in case you want to intercept the call and talk to the caller. To do this, at any stage (screening or not) press [📞].

Use Timed Answer to set up your answering machine to be turned on and off at selected times.

# Message playback

1. Press Menu. Scroll [Vol./Calls] to Answer Machine. Press OK.

2. Play Messages is highlighted. Press OK.

3. The handset displays the number or name of the caller if available, the date and time it was received and whether the message is new (not been listened to) or old (already listened to). The message is played automatically.

During playback you have the following options:

[📞]      to hear the message through the handset earpiece. Press [📞] to play back through the handset loudspeaker again.

[Redial/Vol.] or [Vol./Calls]      to adjust the volume.

[4 GHI]      once to repeat the message.

[6 MNO]      to play the next message.

Delete or [5 JKL]      to delete the current message. Display shows Deleted.

Stop or [2 ABC]      to stop playback.

[📵]      to cancel playback and return to standby.

At the end of playback the handset will return to standby. The messages are renumbered to take account of any deleted messages.

## Delete all old messages

1. Press Menu. Scroll [Vol./Calls] to Answer Machine. Press OK.

2. Scroll [Vol./Calls] to Delete Mess. and press OK.

If there are no old (unplayed) messages, the display shows No Old Messages.

If there are old messages the display shows Delete Old Messages? Press Yes to confirm or No to cancel.

3. Press Back to return to the previous menu level.

Answering machine messages that are not deleted are automatically saved.

**Memory full**

If the caller's still talking when the memory becomes full the caller hears "Memory full, thank you for calling" and the machine will hang up.

You must delete messages before your machine will be able to record new ones. To delete old (played) messages, see opposite or page 39 for instructions.

# Using the answering machine at the base

## Switch on/off

1. Press [Ans. On Off]. The setting is announced and the display briefly displays On or Off.

## Message playback

1. Press [Play ▶ Stop ■]. New messages are played first.

During playback:

| | |
|---|---|
| [Del.] | to delete the current message. |
| [◄◄ Skip] | once to repeat the message. |
| [◄◄ Skip] | twice to play the previous message. |
| [Skip ►►] | to play the next message. |
| [Play ▶ Stop ■] | to stop playback. |
| [– Vol. +] | adjust the speaker volume + or – during playback. |

At the end of playback press [Del.] and follow the voice prompt to press [Del.] again to delete all old messages.

# Remote access

You can operate your answering machine from any Touchtone™ phone by calling your BT Inspire 1500 and entering the 4 digit System PIN.

## To enable/disable remote access

1. Press Menu. Scroll [Vol. Calls] to Answer Machine and press OK.

2. Scroll [Redial Vol.] or [Vol. Calls] to Ans. Settings and press OK.

3. Scroll [Redial Vol.] or [Vol. Calls] to Remote Access and press OK.

4. Press [Redial Vol.] or [Vol. Calls] to select Off or On and press OK.

**Remote access**

When switched on, you can call in from another phone to listen to your messages and operate your answering machine. You are asked to enter your system PIN so that other people cannot ring up and listen to your messages. To change your System PIN, see page 27.

## If you forget to switch on your answering machine

1. Call your number from another phone and let it ring. After 20 rings the machine will switch on and answer your call.

2. Press ✻ and enter your system PIN when prompted. Play back your messages as shown below in 'Operating your answering machine remotely'. If you do not choose to switch your answering machine On, it will switch off when the call is ended.

## Operating your answering machine remotely

1. Dial your phone number. When you hear your outgoing message, press ✻. You will hear, "Please enter your security code".

2. Enter your 4 digit system PIN. You will hear, "To hear main menu press 1".

When you have accessed your BT Inspire 1500, you can use the keypad to operate your answering machine. Follow the announcements and instructions you hear.

**IMPORTANT**

You should change the system PIN from the original setting of 0000. See page 27.

It is advisable to make a note of your new PIN code and keep it somewhere safe.

If you enter the incorrect PIN code you will be allowed two further attempts, if it is still incorrect you will hear, "Thank you for calling", and your BT Inspire 1500 will hang up.

If no button is pressed for 8 seconds or more, your BT Inspire 1500 will hang up.

# Text messaging (SMS)

Welcome to the BT text messaging service on your BT Inspire 1500. Your BT Inspire 1500 can send and receive text messages from participating mobile networks and compatible landline telephones in the UK.

The fixed line text service is provided under BT's terms and conditions for telephone service. These can be found by visiting the BT.com website at: http://www.bt.com/terms

## Subscribe to the text messaging service

When you send your first text message from your BT Inspire 1500 you will automatically be registered for the service.

On receipt of your first text through the service, the system will send you a welcome text message back.

You may also register by sending the word Register to 00000 upon which you will receive a confirmation message.

## Cost of the fixed line service

There is no subscription charge (other than the subscription to Caller Display). Visit the BT.com website (www.bt.com) to find out how much it costs to send a text message (depends upon your call package).

## Sending messages

### Send a text message

1. Press Menu, Text is displayed. Press OK.

2. Write Message is highlighted. Press OK.

3. Use the keypad to enter your message.

Press Options and scroll ▲ or ▼ to:

Send                Press OK.

Enter the phone number and press Send.

**IMPORTANT**

You must subscribe to your Network Provider's Caller Display service so that you can use text messaging and you must not withhold your telephone number. A quarterly fee may be payable, please contact your network provider for more details.

You may also send messages to landline phones that are NOT text compatible. Messages to non-compatible lines will be connected to voice text and delivered in spoken words to the telephone as a call. Please note that the conversion can translate common abbreviations and smileys etc, but to ensure maximum clarity of message delivery, abbreviations etc should be used sparingly.

**Writing tips**

Use the keypad to enter letters and numbers, eg to write today (2day):

Press **2** four times to enter 2.

Press **3** once to enter d.

Press **2** once to enter a.

Press **9** three times to enter y.

Press **1** to enter a space and use **1** and/or **0** for other characters, punctuation marks and symbols.

Press Clear to delete incorrect characters.

**Upper & lower case**

Press **✱** to change between upper (ABC), lower (abc) and sentence (Abc) case letters.

Maximum number of characters in a text message is 160. The display shows a character countdown from 160 down to 0.

Or press `Options` to select a number from the Phonebook, Redial list or Calls list. Scroll `Redial Vol.` or `Vol. Calls` to the option you want and press `OK`. Scroll to the entry or number you want and press `OK`. Press `OK` again to send.

`Store as Draft` Press `OK` to save the message in the Draftbox for sending later.

`Template` To insert a template, press `OK`. The template options are displayed.
Press `Redial Vol.` or `Vol. Calls` to highlight the template you want then press `OK` to insert the template into your text.

4. When sending a message, the display shows `Sending Text` then `Sent`.

5. Press `☎` to return to standby.

Please note that: sent texts are not stored in the Outbox. But if a text message you tried to send was not successful, it is stored in the Outbox.

## View messages in the Outbox

1. Press `Menu`, `Text` is displayed, press `OK`.

2. Scroll `Vol. Calls` to `Outbox` and press `OK`.

3. Scroll `Redial Vol.` or `Vol. Calls` to the message you want and press `Read`.

4. Press `Options` and scroll `Redial Vol.` or `Vol. Calls` to:

`Send` Press `Send` to re-send the message to the original recipient.

`Details` Press `OK` to display the telephone number and date and time the text was received.

`Delete` Press `OK`. Display shows `Delete?`
Press `Yes` to confirm or `No` to cancel.

`Delete All` Press `OK`. Display shows `Delete All?`
Press `Yes` to confirm or `No` to cancel.

`Store as draft` Press `OK`. The display shows `Saved`.

At any time, press `Back` to go back to the previous screen, or press `☎` to cancel and return to standby.

If the text is not sent, the display shows `Aborted!`
It is stored in the Outbox and a 🖬 icon is shown next to the entry.

In order to send and receive text messages you must not withhold your number. On most networks if you normally withhold your number the 1470 prefix presents your number for you.

**Templates**

There are five pre-set templates:
Please call
I'll be there at
What time will
I'll call you
Happy Birthday!

**Receiving a call while writing a text**

If you are writing a text and you receive a call your text can be recovered by following the options to Write Message, where you can continue to edit your text.

## Using the Draftbox

Draft texts you store are kept in the Draftbox.

1. Press Menu, Text is displayed. Press OK.

2. Scroll [Vol./Calls] to Draftbox. Press OK.

3. Scroll [Redial/Vol.] or [Vol./Calls] to the message you want and press Options.

4. Press [Redial/Vol.] or [Vol./Calls] to select Read, Delete or Delete All and press OK.

5. If you select Read, you can edit the message, then press Options and scroll [Redial/Vol.] or [Vol./Calls] to select Save, Send, Delete or Delete All and press OK to confirm.

6. Press [phone] to return to standby.

# Receiving messages

When you receive a new text message, the [envelope] icon is displayed and New Text is displayed on the idle screen.

## Read messages

1. Press Menu, Text is highlighted. Press OK. Scroll [Vol./Calls] to Inbox and press OK.

2. Scroll [Redial/Vol.] or [Vol./Calls] to the text you want to read and press Read.

3. Press [Redial/Vol.] or [Vol./Calls] to scroll through the text.

4. Press Options and scroll [Redial/Vol.] or [Vol./Calls] to:

| | |
|---|---|
| Reply | Press OK. Reply with original text? is displayed. Press No to use a blank message or Yes to keep original text in the reply. Enter your message and press Options, select Send and press OK. |
| Details | Press OK to display the telephone number and date and time the text was received. |
| Forward | Press OK. Add more text if required and proceed as shown on page 38 for creating a new message. |

Unread messages are marked new with the [icon] icon.

| | |
|---|---|
| Delete | Press OK. Display shows Delete? <br> Press Yes to confirm or No to cancel. |
| Delete All | Press OK. Display shows Delete All? <br> Press Yes to confirm or No to cancel. |
| Call Number | Press OK and follow instructions. |
| Store Number | Press OK and follow instructions. |
| Store as draft | Press OK. The display will show Saved. |

**5.** Press 📞 to cancel at any time and return to standby.

## Edit or delete templates

**1.** Press Menu, Text is displayed. Press OK.

**2.** Scroll ▲ to Template and press OK.

**3.** Scroll ▲ or ▼ to the template you want to edit or delete and press Options.

**4.** Scroll ▲ or ▼ to select either Edit or Delete and press OK.

| | |
|---|---|
| Edit | Press Clear to delete characters. <br> Enter your template text and press OK. |
| Delete? | Press Yes to confirm or No to cancel. |

**5.** Press Back to return to the previous menu level.

# Service Centre numbers

To send and receive text messages you need the telephone number of your Network's text Centre. If you accidentally delete the Send or Receive Service Centre numbers you will need to re-enter them in order for your text Service to work.

You can enter up to 4 Service Centre numbers – two Send and two Receive.

The Send Service number is: 1470P17094009.

The Receive Service number is: 0800587529.

**There are five pre-set templates**

There are five pre-set templates:
Please call
I'll be there at
What time will
I'll call you
Happy Birthday!

You can change the templates to your preferred message, up to a maximum of 20 characters.

If you delete a template without replacing the text it is marked as Empty.

All templates are restored if you reset your BT Inspire 1500 to its default settings, see page 28.

**Do you have two text phone bases connected to the same phone line?**

If you have two text phone base stations plugged into one line, you are likely to experience problems receiving text messages. Normally, only one SMS enabled base unit (DECT or cordless) can be plugged into any line.

If you do want to use two base units and still receive written text you must delete receive service centre number from one of the base stations. To do this on your BT Inspire 1500, see page 45. This will allow you to send text via either base station but texts will only be received on the product with the active receive centre number.

If you want to keep more than one text enabled phone connected see the alternative method on page 53 for instructions.

## Add or change Service Centre numbers

1. Press Menu, Text is displayed, press OK.

2. Scroll [Redial Vol.] or [Vol. Calls] to Settings and press OK.

3. Text Centre is highlighted press OK.

4. Scroll [Redial Vol.] or [Vol. Calls] to Send Centre 1 or 2 or
   Rcv. Centre 1 or 2 and press OK.

5. If necessary, press Clear to delete the current number.
   Enter the new service centre number and press OK.

6. Press Back to return to the previous menu level. Or press 📞
   to return to standby.

If you have more than one 'Text Centre' stored on your BT Inspire 1500 you will need to select which one you want to use for sending (see next section below).

## Select Send Service Centre

Only service centres that have numbers stored will be displayed as Send Centres.

1. Press Menu, Text and press OK.

2. Scroll [Redial Vol.] or [Vol. Calls] to Settings and press OK.

3. Scroll [Vol. Calls] to Send Service and press OK.

4. Press [Redial Vol.] or [Vol. Calls] to select the Send Centre menu and
   press OK.

# Message alert

When you receive a text message:

• the new message beep will sound at the handset.
• the new text message icon is shown on the handset display.
• the base indicator light flashes.
  These alerts can be switched On or Off.
  The default setting is On.

## Switch new text message alert on or off

1. Press Menu, Text is highlighted. Press OK.

2. Scroll [Redial Vol.] or [Vol. Calls] to Settings and press OK.

3. Scroll [Vol. Calls] to New Text Alert and press OK.

4. Press [Redial Vol.] or [Vol. Calls] to select On or Off and press OK.

5. Press Back to return to the previous menu level.

# Using additional handsets

You can use up to five BT Inspire additional handsets with your BT Inspire 1500 base to extend your phone system without needing to install extension sockets for each new phone.

Your BT Inspire 1500 handset can also be registered to up to four other bases. You can then select the base you would prefer to use.

If you have purchased a BT Inspire 1500 multiple pack any additional handsets come pre-registered to the base.

If you have purchased an additional handset you must register it to your BT Inspire 1500 base before it can be used. The batteries must be fully charged for 24 hours before you register it.

You may be able to register other DECT handsets to your BT Inspire 1500. Compatibility of products may vary and the number of features available may be reduced in doing so.

## Easy registration of a new additional Inspire handset

To use easy registration a new handset must be used and the base must have the PIN code 0000. (If the base PIN has been changed then the longer registration procedure on the following page will need to be followed).

1. The display will show `Please Register` and once the handset has been fully charged for 24 hours, press `Reg` (left soft key).

2. The display will show `Press and Hold Base Find Key`. Press and hold the button on the base for approximately 8 seconds until the base beeps, then release.

3. Immediately, press `OK` on the handset to confirm. The base will go into registration mode for 90 seconds and will beep when registration is successful. The handset will automatically be assigned the next available handset number and registration is now complete.

Registration of handsets can only take place while the base is not engaged on another call.

If registration is not successful first time, please repeat the process again in case the base registration period ran out of time.

If there are already 5 handsets registered to the base, the registration will fail. You must de-register another handset before you can register the new one.

If your BT Inspire 1500 handset is registered to more than one base, you can select which base to use, see page 25.

If you have a handset registered to more than one base and then de-register it from one of them you will need to re-select which base to use. Until the base is selected the handset will display `Please Register`.

## Registration of an additional handset when base PIN changed (i.e. if PIN changed from default setting of 0000)

At the handset:

1. Press Menu, scroll [Vol. Calls] to Settings and press OK.

2. Scroll [Redial Vol.] to HS Settings and press OK.

3. Scroll [Redial Vol.] or [Vol. Calls] to Register and press OK.

4. Press [Redial Vol.] or [Vol. Calls] to select the base you want (1-4). You should only select a base that has a ✳ displayed beside it. Press OK.

5. Enter the 4-digit system PIN then press OK. The display shows Overwrite the registration on Base x? Press Yes.

6. Press and Hold Base Find Key is displayed, press OK on the handset to commence registration.

At the base:

1. Press and hold [Find] for approximately 8 seconds until it beeps and then release. Press OK on the handset to confirm. The base will go into registration mode for 90 seconds and will then beep if registration is successful. The handset will automatically be assigned the next available handset number.

# Internal calls

## Call another handset

If you have more than one handset registered to the base, you can make internal calls between two handsets.

1. Press [Intercom] and if you have one other handset it will ring. If you have other handsets, press [Redial Vol.] or [Vol. Calls] to select the handset (1-5) you want to call, then press OK.

## Transfer a call

You can transfer an external call to another handset registered to the base.

1. During your call, press Intercom. Your external caller is put on hold.

2. If you have one other handset it will ring. If you have extra handsets, press Redial/Vol. or Vol./Calls to select the handset (1-5) you want, then press OK.

3. When the other handset answers you can announce the caller.

4. Press Switch to switch between the two callers if required. While speaking to the other handset, press 📞 to transfer the call to the other handset.

## 3-Way conference call

You can hold a 3-way conference call between 2 internal callers and 1 external caller

1. During your call, press Intercom. Your external caller is put on hold.

2. If you have one other handset it will ring. If you have extra handsets press Redial/Vol. or Vol./Calls to select the handset (1-5) you want, then press OK.

3. When the other handset answers you can announce the call. Press Conf to join all callers.

If the other handset does not answer, press Back to return to your original caller.

# Help

### Phone does not work

- Have you removed the pull tab and are the batteries installed correctly? See page 6.
- Check that the power is correctly connected.

### No dial tone

- Is the telephone cord of the base plugged into the phone socket?
- Only use the telephone cord supplied with the phone.
- Check that the power is correctly connected.

### Cannot dial out or receive calls

- Check that the power is correctly connected.
- Is the telephone line cord (provided with the product) plugged into the phone socket.
- The batteries may need recharging.
- Has there been a power cut? If so, place the handset back on the base for 10 seconds and try again. If it still does not work disconnect the batteries and power for 10 minutes, then reconnect and try again.

### You have a dial tone, but the phone will not dial out

- If you are connected to a switchboard, check whether you need to dial an access code.

### Handset does not ring

- The ringer volume may be switched off on the handset or the base, see page 24 and 26.
- Check that the power is correctly connected to the base.
- Make sure the handset is registered to the base, see page 46.

### No display

- The batteries may be flat, dead or incorrectly inserted.
- Recharge or replace the batteries (any replacement batteries must be rechargeable and of the same type supplied).

## ⅄ icon flashes

- Is the handset registered correctly to the base, see page 46.

- Check that the power is correctly connected.

- Check that the handset is within range of the base.

- The batteries are low, place the handset on the base/charger to recharge.

## You hear the busy tone when you press 📞

- Another handset registered to your BT Inspire 1500 base may be on the line.

## Answering machine messages have the wrong date and time

- Have you set the date and time? See page 8.

## Answer machine not recording messages

- The memory may be full. Play and delete old messages, see page 38-39.

- Check whether you have a network based Voice mail service, i.e. BT Answer 1571/BT Call Minder, activated on your telephone line. If you have either:

  BT Answer 1571 this service answers after 7 rings and cannot be changed. Set the BT Inspire 1500 Answer delay (page 36 "Answer Settings") to answer after six rings this will ensure that the answer machine receives the message.

  BT Call Minder this service allows you to vary when the service answers the call, either 0, 4, 7 or 10 rings. Change the Voice Mail service to answer after 7 or 10 rings and then set the Inspire 1500 Answer delay (page 36 "Answer Settings") to answer at either 6 or 9 rings to ensure that the answer machine receives the message.

## Cannot access your messages from another phone

- Has Remote access been disabled? To enable Remote access, see page 39.

## No Caller Display number/name displayed

- Have you subscribed to a Caller Display service from your network provider, see page 30.

- The caller may have withheld their number.

- An exact name/number match was not found in your phonebook.
  Check that you have stored the full STD dialling code.

### Cannot register a handset to a base

- You can register a total of 5 handsets to your BT Inspire 1500 base and you can register your BT Inspire 1500 handset to up to 4 bases. Check that you have not exceeded the limits.

- Check that you have entered the correct system PIN number (default PIN 0000).

- Check that you are at least one metre away from other electrical equipment to avoid interference when registering.

### Base unit does not ring, but the lights are on

- Have you connected the telephone line to the telephone wall socket correctly?

- You must use the telephone line cord supplied with the product otherwise the phone may not work.

- Is the base ringer set to off?

- You may have a faulty line or socket. Try using another socket or line. Call BT on 151 if you still experience problems.

### Buzzing noise on my phone or on other electrical equipment nearby

- Sometimes your BT Inspire 1500 can interfere with other electrical equipment if it is placed too close. It is recommended that you place your BT Inspire 1500 at least one metre away from electrical appliances or metal obstructions to avoid any risk of interference.

- Are you using your Inspire 1500 on a Broadband line? If you are, then please ensure that it is connected via an ADSL microfilter otherwise it may cause problems with your phone and Broadband service. BT ADSL microfilters can be purchased from www.shop.bt.com

### You keep hearing a beep

- You have pressed the wrong button in a sequence. Check the prompts in the display or refer to instructions in this user guide.

- The New Call alert might be switched on. The default setting is Off but if you have switched this feature On, then your handset will beep when a missed call is received in your Calls list. See page 30 if you want to switch this feature Off.

- The beeping might be a new text message alert. Check if you have received a new text message and not viewed it yet, see page 43. This alert can be switched Off, see page 45.

- Your battery may be low. Please refer to the battery icons on page 9 and check against the icons on your handset display. If your battery is low, you will need to place the handset on the base to charge it.

- You may be hearing an error tone.  If you press and hold a handset button that does not have a dual-function associated with it i.e. the BT button, then a long press will emit an error tone (providing the handset key tone is set to on) and will not open the BT menu.  A long press and hold is only used for dual-function buttons i.e. a speed dial and keylock button etc, when the dual-function will respond and there will be no error tone.

If you experience any problems, please call the Helpline on Freephone 0800 218 2182* or email **bt.helpdesk@vtecheurope.com**

## Customer Helpline

If you are still experiencing difficulties please call the BT Inspire 1500 Helpline on 0800 218 2182* or email bt.helpdesk@vtecheurope.com.

# Possible problems with text messaging

### Text messages cannot be sent and screen displays Message not sent

- The base station power supply or telephone line cord might not be properly connected.

- Check that the base station power supply is plugged into the mains socket and switched on and that the telephone is plugged into the telephone wall socket.

- There might be a fault on the line. Check your telephone line is working properly.

- You might have deleted the server number in error. See page 45 for instructions on how to enter the number.

### Cannot send text

- Check service centre number is correct including 1470P prefix (this is for BT lines. If you have another network provider please check the prefix number with them). In order to send and receive text messages you must not withhold your number. If you normally withhold your number the 1470 prefix presents your number for you.

### Cannot receive text

- You will not be able to receive text messages until you have first sent a message. The first message sent registers you with the text service.

- More than one text messaging product is plugged into the line. Either remove the other text (SMS) enabled products or see below "I want to use more than one text (SMS) enabled product on my telephone line" for alternative instructions.

- Check service centre number is correct.

- Ensure you have subscribed to a Caller Display service and that it is active. You can check this by noting if your phone displays your caller's number when you receive an incoming call.

## I want to use more than one text (SMS) enabled product on my telephone line

It is possible to connect more than one SMS product to the same telephone line and for both of them to send and receive Text messages, but you must amend the final digit of both the Send and Receive Service Centre telephone numbers first.

All BT text capable telephones are provided with the same send and receive telephone numbers, but with two or more text capable telephones connected to the same telephone line, delivery of text messages becomes unreliable causing the text to be delivered as a normal telephone call which when answered will be an electronic Text to Speech message.

To overcome this problem you must keep one of the products as it is with the default Send & Receive ending in a '9', but for the second and subsequent products you must change the final digit of  the Service Centre numbers (from the default '9') to any unique number between 1 and 8  i.e for a second product change last digit from a '9' to a '1' by changing the Send number from 1470P17094009 to 1470P17094001 and the Receive number from 0800587529 to 0800587521. For the Send number, go into `Text - Settings- Send centre 1-` and amend the last digit and then press `Save`.... (For Rcv. Centre, go into `Text - Settings - Rcv. Centre 1` and amend the last digit and then press `Save`).

Once changed, for the products that you have assigned new send and receive numbers, you need to send a new registration text to the Fixed Line Text Service platform to register the new identity (i.e. send a text to 00000 from the product that you changed the Send & Receive numbers). You can then send and receive text messages from more than one product.

## Text has previously been sent and received but you are now only receiving voice spoken text messages, from number 0845 6021111.

- This may be due to your line being de-registered at the text service centre. All you need to do is text `Reset` and send it to 00000. You will receive a confirmation message back. This assumes that your Caller Display service is active and working on your line. Messages sent to 00000 are free.

## Further help and advice for text queries on BT lines:

- BT Residential customers – call 151, choose option 2, when prompted by the Fault Management Service select option 2, enter your phone number on the handset and wait to speak to a customer adviser.

- BT Business Customers – call 152, choose option 2, when prompted by the Fault Management Service select option 2, enter your phone number on the handset and wait to speak to a customer adviser.

- For other telephone service providers please contact their customer services.

## General sales enquiries

- BT Residential lines – call 150. BT Business lines – call 152.

- For non BT line customers, call 0800 800 150 (residential) or 0800 800 152 (business).

- Additional handsets are available from the Helpdesk on 0800 218 2182*.

## Billing enquiries

- Refer to the telephone number shown on your telephone bill.

## Other functions and services available from the text messaging service

By sending the following commands to the BT text self administration facility you can control functions and capabilities in your text phone and the way messages are handled.

1. Press Menu. Text is highlighted. Press OK.

2. Write Message is highlighted. Press OK.

3. Use the keypad to type in the following commands (depending upon what you want to do):

   [*♪] [#⌂] [#⌂] Opt out from receiving voice text messages.

   [#⌂] [#⌂] [#⌂] Turns off the opt out option.

   [*♪] [2 ᴬᴮᶜ] [*♪] Turns on permanent voice text message delivery to your phone.

   All incoming text is delivered as voice text.

   [#⌂] [2 ᴬᴮᶜ] [#⌂] Turns off permanent voice text message delivery.

4. Press Options. Send is highlighted, press OK.

5. Enter the number 00000 then press Send.

## If you are sending a message from a fixed line phone to another fixed line phone

[*♪] [3 ᴰᴱᶠ] [#⌂] Forces a message you send to be delivered as a voice text even though the recipient may have a text enabled phone and usually receives written text. This command is inserted at the start of the message and applies only to that message, e.g. [*♪] [3 ᴰᴱᶠ] [#⌂] 'Hello I will be home late'.

## User Guide formats

This document is also available in other formats, such as Large print, Braille and Audio CD.
If you would like a copy, please call 0800 218 2182*.

# General information

## IMPORTANT

This equipment is not designed for making emergency telephone call when the power fails. Alternative arrangements should be made for access to emergency services.

This product is intended for connection to analogue public switched telephone networks and private switchboards in the United Kingdom and Republic of Ireland.

## Replacing the handset batteries

After a time, you may find that the handset batteries are running out of charge more quickly. This is a standard sign of wear and the batteries will need replacing.

1. Slide open the battery compartment cover.

2. Take out the old batteries and replace with 2x AAA NiMH 600mAh **rechargeable** batteries.

3. Push the battery compartment cover back on until it clicks into place.

## WARNING

Do not immerse batteries in water or throw them into a fire, or dispose of them with ordinary domestic refuse. BT accepts no responsibility for damage caused to your BT Inspire 1500 by using any other types of batteries. There is a risk of explosion if incorrect batteries are fitted.

## Safety information

- Only use the power supply suitable for the BT Inspire 1500 range. Using an unauthorised power supply will invalidate your guarantee and may damage the telephone. The item code for the base power supply is 048611. If you have purchased a Inspire additional handset the item code for the charger power supply is 048610.

- Use only the approved rechargeable batteries supplied. Spare rechargeable batteries are available from the BT Inspire 1500 Helpline on 0800 218 2182*.

- Do not open the handset (except to replace the handset batteries) or the base. This could expose you to high voltages or other risks. Contact the Helpline on 0800 218 2182* for all repairs.

-  If the keylock is switched on, it is possible to make calls to emergency services numbers 999 and 112.

- Radio signal transmitted between the handset and base may cause interference to hearing aids.

- It is recommended that advice from a qualified expert be sought before using this product in the vicinity of emergency/intensive care medical equipment.

- It is recommended that if you have a pacemaker fitted you check with a medical expert before using this product.

- Your product may interfere with other electrical equipment, e.g. TV and radio sets, clock/alarms and computers if placed too close.

- It is recommended that you place your product at least one metre away from such appliances to minimise any risk of interference.

- Never dispose of batteries in a fire. There is a serious risk of explosion and/or the release of highly toxic chemicals.

## Cleaning

- Clean the handset and base (or charger) with a damp (not wet) cloth, or an anti-static wipe. Never use household polish as this will damage the product. Never use a dry cloth as this may cause a static shock.

## Environmental

- Do not expose to direct sunlight.

- The handset may become warm when the batteries are being charged or during prolonged periods of use. This is normal. However, we recommend that to avoid damage you do not place the product on antique/veneered wood.

- Do not stand your product on carpets or other surfaces which generate fibres, or place it in locations preventing the free flow of air over its surfaces.

- Do not submerge any part of your product in water and do not use it in damp or humid conditions, such as bathrooms.

- Do not expose your product to fire, explosive or other hazardous conditions.

- There is a slight chance your phone could be damaged by an electrical storm. We recommend that you unplug the power and telephone line cord during an electrical storm.

# Product disposal instructions

The symbol shown here and on the product means that the product is classed as Electrical or Electronic Equipment and should not be disposed with other household or commercial waste at the end of its working life.

The Waste of Electrical and Electronic Equipment (WEEE) Directive (2002/96/EC) has been put in place to recycle products using best available recovery and recycling techniques to minimize the impact on the environment, treat any hazardous substances and avoid the increasing landfill.

### Product disposal instructions for residential users
When you have no further use for it, please remove any batteries and dispose of them and the product as per your local authority's recycling processes. For more information please contact your local authority or the retailer where the product was purchased.

### Product disposal instructions for business users
Business users should contact their suppliers and check the terms and conditions of the purchase contract and ensure that this product is not mixed with other commercial waste for disposal.

# Guarantee

Your BT Inspire 1500 is guaranteed for a period of 12 months from the date of purchase.

Subject to the terms listed below, the guarantee will provide for the repair of, or at BT's or its agent's discretion, the option to replace the BT Inspire 1500 or any component thereof, (other than batteries), which is identified as faulty or below standard, or as a result of inferior workmanship or materials. Products over 28 days old from the date of purchase may be replaced with a refurbished or repaired product.

### The conditions of this guarantee are:

- The guarantee shall only apply to defects that occur within the 12 month guarantee period.

- Proof of purchase is provided.

- The equipment is returned to BT or its agent as instructed.

- This guarantee does not cover any faults or defects caused by accidents, misuse, fair wear and tear, neglect, tampering with the equipment, or any attempt at adjustment or repair other than through approved agents.

- This guarantee does not affect your statutory rights.

### Within the 12 month guarantee period:

If you experience difficulty using the product, prior to returning your product, please read the Help section beginning on page 49 or contact the BT Inspire Helpdesk for assistance on 0800 218 2182* or email bt.helpdesk@vtecheurope.com. Additional answers to Frequently Asked Questions are available from www.bt.com/producthelp

In the unlikely event of a defect occurring, the helpdesk will issue a Fault Reference Authorisation (FRA) number and instructions for replacement or repair. Please note you will need the FRA number before returning the product. This does not affect your statutory rights.

### Outside of the 12 month guarantee period:

If your product needs repair after the guarantee period has ended, the repair must meet the approval requirements for connection to the telephone network. We suggest you call our recommended repair agents Discount Communications Ltd on 0800 980 8999.

### Returning your phone

If the Helpline is unable to remedy your problem they will issue a Fault Reference Authorisation number and ask you to return the product to your original place of purchase. Where possible, pack the product in its original packaging. Please remember to include all parts, including the line cords, power supply units and the original batteries.

### For your records

Date of purchase:

Place of purchase:

Serial number:

For guarantee purposes proof of purchase is required so please keep your receipt.

## Technical information

### How many telephones can I have?

All items of telephone equipment have a Ringer Equivalence Number (REN), which is used to calculate the number of items which may be connected to any one telephone line. Your BT Inspire 1500 has a REN of 1. A total REN of 4 is allowed. If the total REN of 4 is exceeded, the telephones may not ring. With different telephone types there is no guarantee of ringing, even when the REN is less than 4. Any additional handsets and chargers that you register have a REN of 0.

* Calls made from within the UK mainland network are free. Mobile and International call costs may vary.

If you experience any problems, please call the Helpline on Freephone 0800 218 2182* or email **bt.helpdesk@vtecheurope.com**

# R&TTE

This product is intended for use within the UK for connection to the public telephone network and compatible switchboards.

This equipment complies with the essential requirements for the Radio Equipment and Telecommunications Terminal Equipment Directive 1999/5/EC.

## Declaration of Conformance

Hereby, VTech declares that this BT Inspire 1500 is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

If you would like a copy of the Declaration of Conformance, please email bt.helpdesk@vtecheurope.com

## Connecting to a switchboard

This product is intended for use within the UK for connection to the public telephone network and compatible switchboards, which support tone and pulse dialling and timed break or earth recall.
If in doubt please consult your service provider.

## Inserting a pause

With some switchboards, after dialling the access code you may have to wait for a moment while the switchboard picks up an outside line so you will need to enter a pause in the dialing sequence.

Press and hold **0** to insert a pause (P) before entering the telephone number.

You may also need to enter a pause when storing international numbers or charge card numbers.

## Recall

You may need to use the recall function if you are connected to a switchboard/PBX (Private Branch Exchange), contact your PBX supplier for further information. The recall function is set to timed break recall by default and is also used for BT Calling Feature.

# User Guide formats

This document is also available in other formats, such as Large print, Braille and Audio CD.
If you would like a copy, please call 0800 218 2182*.
