Antec Nine Hundred

Gaming Case

The most versatile gaming case... EVER!

Introducing the Antec Nine Hundred hardcore gaming case. Now you can own any noob ever spawned with this ultra-mean case in classic black finish. We know your gaming hardware produces a lot of heat, that's why the case is built for maximum cool with a perforated front bezel, three 120mm fans with mounts for even more fans, and a monster top-mounted 200mm fan...that's right, we said 200mm!

The versatile Nine Hundred is maximally customizable to fit your needs. The modular design lets you modify the placement of the front fans and hard drive cages. There's even a tray on top for your mp3 player, digital camera, or that spare illudium Q-42 explosive space modulator that you have lying around. Be the envy of everyone at your next LAN party, impress your friends, and just generally show everyone that you are the ultimate master of all time with the Antec Nine Hundred!
