The official wheel of Gran Turismo®, the Logitech® Driving Force™ GT is designed from the ground up to provide an exceptionally realistic PLAYSTATION®3 racing experience. Its advanced force-feedback technology recreates bumps, crashes and traction loss with jaw-dropping realism, while the 900-degree wheel rotation accurately replicates the steering dynamics of many real cars. A comfortable 33 cm (11 inch) rubber-overmould rim provides a slip-free grip; the 24-position real-time adjustment dial (a first on a force-feedback racing wheel) lets you fine-tune brake bias, traction control and other settings on the fly for unprecedented control over your car's performance characteristics; and the full-size accelerator and brake pedals deliver instant response.
