Up to 5Gbps USB3.0 performance for your next generation data devices

Enjoy super-fast data transfer speeds with total USB2.0 backward compatibility for your legacy devices.

The new Dynamode **USB-2PCI-3.0** is the ideal choice for system builders and enthusiasts looking to dramatically boost their data transfer speeds for the likes of the next generation external USB3.0 hard disks, NAS drives or other demanding data transfer applications.

With up to x10 the data transfers of existing USB2.0, USB3.0 promises to allow much faster backup and restore times, allow much improved return-to-application times (RTO) of intensive applications like Photoshop and QuarkExpress and allow real-time HD media streaming without the annoying buffering, from your new USB3.0 external Hard Disks.

Easy to install in any PCIe Plug n' Play slot with two USB3.0 connectors which are of course backward compatible with any USB2.0 devices you may have and of course the **USB-2PCI-3.0** is fully Windows8(tm) compatible, straight from the box.

specifications:

SuperSpeed(tm) USB3.0 - up to 5Gbps data speeds

Dual USB3.0 ports in full height riser bracket

Backward compatible with legacy USB2.0 devices

Advanced D70200 or equiv. USB3.0 chipset

Plug n' Play PCIe version 2.00 interface

Connect either USB3.0 or existing USB2.0 data cables

On-board 4-pin FDU style power connector

Compatible with Microsoft(tm) Windows 2000/XP/Vista(tm)

Compatible with Microsoft(tm) Windows7(tm) Windows8(tm)
