

Sound Blaster Audigy Rx

Experience the wonder of High Quality Podcast and 7.1 Surround Sound with the Sound Blaster Audigy Rx!

The Sound Blaster Audigy Rx is an advanced sound card that represents the perfect upgrade from basic motherboard audio to immersive cinematic surround sound. With its advanced chipset designed to process our legendary EAX reverb engine, users of the Audigy Rx can look forward to experiencing superb 7.1 multi-channel audio. The card further features a 106dB SNR and the Sound Blaster Audigy Rx Control Panel, a dedicated PC software that allows for full control of every aspect of your sound card. Entertainment enthusiasts would also love it for its EAX Studio software that allows for additional environmental effects to music, movies, games and voice; and for its 600 ohm headphone amp for studio quality monitoring.
