<b>Intro Phrase / Tagline</b>	Slim 25mm radiator and dual PWM fans for compact, performance liquid CPU cooling		
<b>Product Full Name/Title</b>	<b>Corsair Hydro Series™ H75 Performance Liquid CPU Cooler</b>		
<b>25-Word Product Description</b>	Hydro Series H75 uses a slim 25mm thick 120mm radiator for enhanced case compatibility, and dual PWM fans for efficient liquid CPU cooling and BIOS-adjustable performance.		
<b>50-Word Product Description</b>	Hydro Series H75 provides effective and efficient liquid CPU cooling in a compact size. The 120mm radiator is only 25mm thick for compatibility with more cases, and the dual PWM fans can be controlled by your motherboard's BIOS for adjustable performance. The tool-free universal mounting bracket supports modern motherboards from both Intel and AMD.		
<b>100-Word Product Description</b>	Hydro Series H75 provides effective and efficient liquid CPU cooling in a compact size. The 120mm radiator has a thickness of only 25mm and is paired with standard diameter, kink-resistant tubing for compatibility with smaller cases and tighter spaces. The dual SP120L 120mm fans support PWM motherboard fan headers, so you can set the exact performance level you want. The tool-free mounting system has wide Intel and AMD socket compatibility. A copper microfin coldplate and high-quality ceramic bearing pump help provide reliable, low-noise heat transfer away from your CPU. And, like all Hydro Series liquid CPU coolers, Hydro Series H75 is completely self-contained and never needs filling or maintenance.		

<b>Product Features</b>	<ul style="list-style-type: none"> <li>• 25mm thick radiator core (29mm including housing) for enhanced compatibility with small cases.</li> <li>• Copper microfin coldplate with high quality, quiet ceramic bearing pump.</li> <li>• Easy to use tool-free black nickel finish mounting brackets for modern CPUs.</li> <li>• Dual SP120L PWM fans for great performance and adjustable noise levels.</li> </ul>
